Ref: Michael L. Hardin

It is with a great deal of pleasure that I announce that Mike Hardin will be joining the H-J Family of companies effective September 21, 2009. Mike will be joining H-J as a Field Sales Engineer, with an office in Versailles Kentucky.

Mike joined this industry in 1969 and has had a diverse career that has spanned over 40 years with the Kuhlman Electric Company in Versailles, Kentucky. The experience that Mike has had the opportunity to achieve with an "old line transformer company" like the Kuhlman Electric Company is invaluable to this industry. Mike started out in production and worked his way up very quickly through Quality, Design Engineering, Product Marketing and, most recently, as Senior Design Engineer.

Mike is a long standing member of the IEEE Transformers Committee, Power Engineering Society, and Standards Association. These associations are responsible for developing and maintaining Standards and Guides required for the manufacturing of products used throughout the Electrical Utility Industry. Mike's membership in various Subcommittees, Working Groups, and Task Forces has been instrumental in moving this "Standards" process forward.

Mike and his wife Carlene have been married for 39 years and have one son, Jonathan. Mike enjoys golfing and running in his spare time.

With the wealth of knowledge and experience that Mike brings, along with his sincerity, dedication and commitment, we are pleased that he has chosen to join the H-J team. Please join me in welcoming him aboard and wishing him all the success in his new career.

Best Regards

James Edward Smith

Sales Manager
